

WHY THE **Infrastructure** POINT REPAIR SYSTEM IS THE BEST ON THE MARKET

- Training at your location.
- When training is completed you will have 3 complete repairs in your problem lines.
- Kits come complete with everything needed for the repair.
- Two-part epoxy system comes pre measured, ready to mix, no guesswork.
- Hot, Warm, and Cold weather formulations for consistent curing times.
- We have an in-house chemist.
- Engineer certified ASTM 1216.
- 100 -Year life certification.
- All data is third party testing.
- Patented straps and melt away strings for an easy to wrap stay in place liner.
- Each liner comes sized to order and is available in different thicknesses.
- Our recommended carriers can be used for more than one pipe size.
- Carrier heads are designed exclusively for IRSI.
- We are one of the most experienced manufacturers in the industry.
- Clean up is environmentally friendly and completely disposable.
